

Final Practice: Group Answer Sheet

GOVT 10: Quantitative Political Analysis

Group name: _____

Date: _____

Members: _____

Questions 1–10 Design and causal inference

1. _____ 2. _____ 3. _____

4. (TRUE / FALSE) a) _____ b) _____ c) _____ d) _____

5. (Fill in the blank)

Blank 1: _____

Blank 2: _____

6. _____ 7. _____ 8. _____ 9. _____ 10. _____

Questions 11–14 Donations model

11. Predicted donation, 50-year-old **first-time** prospect. Show your work.

Answer: _____

12. Predicted donation, 50-year-old **prior donor**. Show your work.

Answer: _____

13. _____ 14. _____

Questions 15–24 Regression

15. _____ 16. _____ 17. _____ 18. _____ 19. _____

20. (TRUE / FALSE) a) _____ b) _____ c) _____ d) _____

21. _____ 22. _____ 23. _____ 24. _____

Questions 25–31 Dummy variables and difference-in-differences

25. Predicted trust, **large city**, 12 years of education. Show your work.

Answer: _____

26. Predicted trust, **small town**, 12 years of education. Show your work.

Answer: _____

27. _____ 28. _____ 29. _____

30. Difference-in-differences estimate for online registration. Show your work.

Answer: _____

31. _____

Questions 32–47 Inference and uncertainty

32. _____ 33. _____ 34. _____ 35. _____ 36. _____ 37. _____
38. _____ 39. _____ 40. _____
41. (TRUE / FALSE) a) _____ b) _____ c) _____ d) _____
42. (TRUE / FALSE) a) _____ b) _____ c) _____ d) _____
43. _____ 44. _____ 45. _____
46. (TRUE / FALSE) a) _____ b) _____ c) _____ d) _____
47. _____

Questions 48–58 R, inference review, and reading output

48. _____ 49. _____ 50. _____ 51. _____

52. Write complete R code: filter `survey` to age 18+, then report mean and SD of `income` by `party`.

Answer: _____

53. _____

54. (Matching: write-up to flaw)

a = _____ b = _____ c = _____ d = _____

55. _____ 56. _____ 57. _____ 58. _____
